VINIFICATION

Night mechanized harvest and grapes chosen on selection table. Full destemming followed by cold pass-over by heat exchanger. Fermentation made in small stainless-steel tanks and controlled temperature to preserve aromatic elegance. Following fermentation, aging is made on oak barrels, 80% French and 20% American for 12 months and equal period bottled.

TASTING NOTES

Clear, grenade color; it appears with an aromatic intense prole on the nose suggesting mature fruits, with slight wooden notes and suggestion of spices. It appears full-bodied and well balanced on the palate, with robust tannins and well combined acidity, closing with a long and elegant finale.

SUGGESTED PAIRINGS

We invite you for a toast with this red wine, accompanied with roasted kid or typical Alentejano lamb or grilled well spiced fat meats. Recommended drinking temperature 16°C to 18°C.
